CANAVAN SEAT

THE LATEST SEAT DEALER IN EAST DUBLIN

CANAVAN SEAT

Another arrival to the SEAT brand covering the eastern part of Dublin is Canavan SEAT located on the East Wall Road, Dublin 3, this is a long established dealership, which was founded by the late Tom Canavan in 1988. Now under the management of the Brightstone Group, with a number of other

dealerships in the Dublin area, Canavan SEAT is well located to serve the areas around the city centre, providing both vehicle sales and service facilities. As part of their expansion plans for the East Wall Road premises Damien Smyth will take on the role of developing the SEAT presence and he is optimistic that this will add to customer choice at this prime location.

Damien will be focused on providing first class customer service and value for money offerings based on SEAT's superb range of vehicles including the Mii, Leon, Toledo and recently arrived new Ibiza and Alhambra.

This is another investment in the SEAT brand which will help grow its share of the new car market over the coming years, especially with the imminent arrival of SEAT's first SUV.

We wish our other addition to the SEAT dealer family the very best of luck! Call **01 8364433**
