TECHNOLOGY TO ENJOY

# TECHNOLOGY TO ENJOY

At the heart of everything we do is the belief that relevant technology should be available to everyone.

We believe that this will make the world a better and more enjoyable place. We want everything that we create to inspire you to make beautiful things happen. And nowhere is this better expressed than in the SEAT Leon range. Stunning design, state-of-the-art safety technology and a dynamic driving experience: these are the common denominators of the Leon family.

LEON SC

LEON 5D

LEON ST

Some of the models shown within this brochure may not be available yet in the Irish market. Please contact your local authorized SEAT dealership for more information

# LEON 5D WE GIVE DESIGN A PURPOSE

The new SEAT Leon family has been redesigned from the ground up. Quality engineering and technology ensure the Leon 5D is a driving experience like no other. With iconic angular design at its heart, the Leon 5D benefits from sporty, streamlined proportions that make it responsive at every turn. The sharp angles merge seamlessly with fluid curves and flowing lines to ensure a bold exterior. One that truly sparkles in sunlight and embraces the warmth you have come to expect from a SEAT. Without light there is no design and that has driven this car, from conception to completion.

The Leon 5D is more confident, more dynamic and filled with some of our brightest ideas yet. Like the EasyConnect System, which controls the entertainment, communications and car functions via a touchscreen. And the SEAT Drive Profile, allowing you to select different driving modes depending on what driving mood you're in. Available with a range of powerful but efficient engines, you'll wonder why all cars aren't engineered like the SEAT Leon 5D. After all, every detail has a higher purpose. Put simply, this is a car to enjoy.

LEON 5D

LEON SC

# LEON SC DYNAMIC DRIVING FOR A DYNAMIC LIFE

And for the sportier amongst us, look no further than the **SEAT Leon Sports Coupé**. The Leon SC has everything the Leon has and more, with a specific focus on agility to provide a dynamic driving experience. Being agile allows you to rapidly respond to change. It is the skill of movement – the combination of balance, coordination, speed, reflexes, strength and endurance. We can think of no better place for those attributes than in your car. That's why the Leon SC is fitted with a shorter wheelbase than the Leon, resulting in a more dynamic chassis and a more responsive drive.

Just like the Leon, the Leon SC benefits from one of the best Sound Systems in its class. It's also packed with safety-enhancing technology like the Tiredness Recognition System to keep you alert and Traffic Sign Recognition for adverse or congested driving scenarios.

Welcome to the bright side of driving.

# LEON ST MORE SPACE MORE LIFE

We can never be sure what life has in store for us, that's why we built the **SEAT Leon ST** with versatility at its heart. It's our first Leon estate, so naturally we wanted it to be first class. That's why along with all the other great features of the Leon 5D, we packed it full of space. It comes with an impressive boot of 587 litres of capacity that can easily turn to 1470 l at a push of a button thanks to the innovative Easy Back Seat Release System. The boot has a chromed loading lip for added protection and offers endless possibilities thanks to its multi-levelled floor design.

If that's not enough, add to it; Adaptive Cruise Control that automatically adjusts your speed to keep you safe and a panoramic sunroof that gives your view a fresh new perspective. Now that's the SEAT Leon ST. Never again will you have to decide between style and versatility.

LEON ST

# DON'T LEAVE ANYTHING BEHIND

Everything in the SEAT Leon ST has been designed to make the most of its 587 litres of boot space.

The boot has a double-floor that can be easily adjusted using both the tray and boot liner underneath. When not in use, the boot tray can be easily stored under the liner, increasing the capacity of available space to 687 litres.

The centre opening makes it easy to store or transport long objects. And if further space is needed, the Easy Back Seat Release System allows you to fold one or more of the rear seats flat in seconds. A net will ensure that your belongings are secured in place. Now you can have full use of 1470 litres of boot space.

There is no item big enough to beat the versatility of the SEAT Leon ST.

1470L CAPACITY WITH DIVIDER NET.

1470L CAPACITY.

OPTIONAL FOLDABLE PASSENGER SEAT.

# LEON X-PERIENCE DESIGNED FOR DISCOVERY

The New SEAT Leon X-PERIENCE, the first Leon all road, combines a distinctive design with exclusive features, giving you the perfect vehicle to explore new destinations and have new experiences. With this new all road, you can enjoy every second of the journey.

The New SEAT Leon X-PERIENCE maintains the same beautiful design that characterises the Leon family, and enhances it for an all road lifestyle. Specific features such as protective cladding on the wheel arches and side skirts combine robustness with protection, while a higher suspension ensures an effortless drive on even the most challenging of roads.

Inside, meticulous attention to detail enhances the car's style and improves your driving experience. Materials of the highest quality are used throughout, with details like the orange stitching on the leather steering wheel, adding a touch of sophistication and better grip too. As versatile as it is attractive, with the adaptable boot space of up to 1470 litres, you have the flexibility to pack exactly what you need.

LEON X-PERIENCE

LEON X-PERIENCE

# EQUIPPED FOR NEW ADVENTURES

The New SEAT Leon X-PERIENCE gives you the freedom to discover new places, and its range of features mean you will have the protection and the efficiency to go further than ever.

Travel in safety and comfort on every track thanks to its state-of-the-art technology. The 4Drive system automatically adapts to the road, distributing power between the wheels to ensure agility and control in every situation.

The car's TDI engines, with up to 380/1750-3000 torque, along with the Start/Stop system offer high performance and low consumption, allowing you to enjoy maximum power with minimal effort, for a car perfectly suited to explore new routes.

The SEAT Drive Profile, with Eco, Normal, Sport and Individual modes, lets you match your driving style to your journey. And the optional Navi System High with 3D navigation gets you to your destination with ease.

# LEON CUPRA 100% BEAUTY 100% BEAST

Sometimes beauty is better appreciated when you take your time to contemplate it. Other times you enjoy it by taking it to the limit. This is the Leon CUPRA.

Vanguard design and competition spirit define the DNA of the brand's most intense cars. And now with the arrival of the All New SEAT Leon ST CUPRA with its 587 litre boot capacity, versatility has been added to the family's qualities.

290 HP TSI efficient engines shoot the CUPRA range from 0 to 100 in less than 5.7 seconds. On the outside, special touches such as the red calliper brakes give a sport look to every Leon CUPRA. Inside, the red LED ambient lights and the CUPRA Drive Profile complete the car for a more dynamic driving experience.

The sum of beauty and power can result in only one thing: living your everyday more intensely.

LEON ST CUPRA

# WHEN POWER IS CHARACTER

The New SEAT Leon CUPRA 290 HP is SEAT's most powerful series-production car. Featuring an all-new 290 HP 2.0 TSI dual injection engine and packed with technology developed for the racetrack, the New SEAT Leon CUPRA 290 HP guarantees precision driving fun and outstanding performance on every drive.

The New SEAT Leon CUPRA 290 HP blends stunning dynamics with precise agility. From the Dynamic Chassis Control, which adapts the characteristics of your Leon CUPRA's chassis to the conditions of the road, to the front-axle differential lock, designed to improve traction and handling while also delivering a more precise and relaxed steering feel. The New SEAT Leon CUPRA 290 HP engine provides maximum power and its high performance brake system delivers a safe and reliable deceleration every time. Dynamic details like the double exhaust pipes that thrust out from the rear diffuser, now upgraded to provide faster and more efficient cylinder clearance, further enhance the driving experience. Even the SEAT Drive Profile has been redesigned to suit the car's ultra-sporty characteristics.

All this, combined with a dynamic exterior and its impressive efficiency (a maximum of 6.6 litres with Automatic Gearbox (DSG) and 6.7\* litres with a standard gearbox), make the New SEAT Leon CUPRA 290 HP the car that best expresses SEAT's racetrack heritage on the road.

\*Consumption of SEAT Leon 5D CUPRA.

# BRINGING COLOUR TO YOUR CUPRA

New CUPRA Black, White & Orange lines

The SEAT Leon CUPRA takes sporty performance and dynamic design to new heights. Now the new optional Black, White and Orange Lines bring yet more sophistication, vitality and sportiness to this exemplary model.

Design is so much more than appearance. The design choices you make reflect your character, your emotions and your identity. These new lines allow you to perfectly express yourself with outstanding exterior features in all classic black, brilliant white, or sporty orange accentuating the powerful appearance of your CUPRA.

With the CUPRA Black Line, enjoy an understated elegant and classic look, while with the CUPRA White Line, accentuated vitality and freshness. The CUPRA Orange Line gives your car a youthful, athletic, standout look: exterior mirrors, lettering on the tailgate, outlined front grill frame, 19" CUPRA Alloy Wheel, brake callipers and side spoiler, each in Black High Gloss, Pure White or Cupracer Orange.

LEON 5D

# THE POWER TO STEER YOUR EMOTION

The Leon looks powerful even when it's standing still. Start the engine, and you'll discover it's a car that also keeps its promises, without sacrificing control and agility. Choose from the formidable but efficient 1.6 litre TDI; the lean, mean 1.2 litre TSI; or go all out with our most powerful engines – the 2.0 TDI, or the formidable new 2.0 TSI 290 HP available for the top-of-the line Leon CUPRA 290. All our engines are efficient powerful and responsive. Thanks to their innovative fuel economy, performance won't come at a price. These are a new generation of engines with lower emissions and petrol consumption than ever before.

And, with a more evenly balanced suspension, the Leon offers more than just raw power; it connects you to the road through a drive that's sporty, dynamic and comfortable. Add to the mix 4-wheel drive for extra traction\*, or the optional DSG gearbox with shift paddles mounted on the steering wheel and driving the Leon will ensure you have all the power and control right at your fingertips.

\*Available for Leon X-PERIENCE.

# THE ENVIRONMENT ALSO DESERVES TO ENJOY THE RIDE

Bold, powerful and agile, the SEAT Leon Ecomotive is a natural athlete. But it's also a bit of an eco-warrior too.

This is thanks in part to something known as the Start/Stop system. This innovative technology limits the amount of time that the engine spends idling, shutting down when you're at a standstill. So if you spend a lot of time in traffic, it cuts down your emissions and your fuel bills.

So while the Leon might make a big impression on you, the environment will hardly know it's there.

ECOMOTIVE

**START/STOP SYSTEM.**  
This system allows you to save fuel and cut down on CO<sub>2</sub> emissions. Start/Stop System activates when you are in a neutral gear position. The engine turns off completely and remains stopped until you put the foot on the clutch. To be on the move again, you only need to step on the clutch, shift into first gear and the engine will start automatically.

# WE CARRY THE BEST OF US INSIDE

We wanted the Leon to be more than a car. We wanted it to be an experience. That's why every feature and fitting is made to such exacting standards. From the ergonomic seats and moulded instrument clusters, to the chrome door handles and leather steering wheel; everything in the Leon breathes an air of quality.

The Leon SC is also fitted with a shorter wheelbase for more impressive design proportions, and a double floor in boot to give your car almost magically spacious proportions. There's also a range of upholstery choices, including Alcantara, beige leather\*, black and grey. An extra touch of distinction is provided by the LED Interior Illumination Pack, which includes courtesy lights (front and rear), foot area and make-up lights, in boot, all with bright LED technology. And you'll find sophisticated infotainment systems that will keep you up-to-date and entertained. The Leon SC comes with sport seats standard in all trims.

Perfectionism can be seen and felt in every detail of the Leon's construction. And that's before you've even turned the key.

\*Not available for Leon SC.

# DRIVING PLEASURE IS ABOUT ENJOYING THE DETAILS

Look deep into the Leon's sculpted front and rear lights, and you'll see the future: SEAT Full LED headlamps. A unique feature that brings the benefits of daylight to nighttime driving.

LED lights are smarter and more efficient than their halogen equivalents. You get pure white 'daylight' at the front for improved vision and faster response lighting at the back to give drivers behind you more time to react when you brake. Not only do they make you more visible, they also give the Leon a sleek look that's sure to be admired. With futuristic lights outside, we had to create the optimum experience inside too.

SEAT's Drive Profile allows you to choose the driving mode you want with three distinct modes – Normal, Sport and ECO – each giving you full control over the Leon's performance. Every mode allows you to vary engine response, steering, interior ambient lighting (red in-sport mode and white in Normal and Eco mode) and engine sound. What's more, you can even select your favourite aspect of each mode to suit your personal driving style.

You'll not only see the difference when you drive the SEAT Leon, you'll also hear it and feel it at every stage.

# THE WORLD RIDES WITH YOU

The SEAT Sound System and radio, navigator, Bluetooth®, and more, are all controlled through our very own EasyConnect entertainment system. This allows you to manage the Leon's large array of infotainment options through a single touchscreen mounted on the dashboard. The entire console is driver-orientated for easier control and syncs easily through SEAT Full Link technology for social media and your favourite playlists, wherever you are.

A substantial 5" screen comes as standard, with the option to upgrade to a Navi System Plus, featuring a higher resolution 6.5" touch screen, enhanced connectivity and 3D image navigation. Whichever you choose, the three-dimensional button designs, razor-sharp display and logical interface will keep you connected to the world and to your inner-child.

# TECHNOLOGY TO DRIVE WITH PEACE OF MIND

The most important things that go into the Leon are you and your passengers. That's why we've designed it to be one of the safest places you can be on the road. For starters it comes with built-in XDS\* – a clever piece of technology that improves the car's traction when accelerating through curves. Not to mention Hill Hold Control\* for smoother hill starts.

The Leon also looks out for you in other ways. With the aid of a mono-video camera installed on the windshield, the High Beam assist automatically alters the intensity of the headlights when faced with oncoming traffic. Lane Assist warns against drifting into another lane and Tiredness Recognition measures fatigue to help you stay alert and safe. A Rear View Camera takes the stress out of parking and manoeuvring while Traffic Sign Recognition detects speed limits and senses distances to other vehicles when driving on busy, congested roads. In the unlikely event of an accident, the Automatic Post-Collision Braking System prevents further impact by applying a secondary braking system, on top of triggering the hazard and brake lights.

Seven airbags come as standard, including knee airbag<sup>1</sup>. And in the rear seats there's an iSOFix system to keep the smallest passengers safe and sound. And with the Leon being awarded the maximum 5-star Euro NCAP\*\* safety rating. Wherever you sit in the Leon, you'll always be on the safe side.

\* Standard for ST and FR trim. optional for S trim.

\*\* For detailed information go to [www.euroncap.com](http://www.euroncap.com), the 5 star EuroNCAP rating was awarded to the SEAT Leon 5D model tested in 2012.

<sup>1</sup> Standard for most of european markets. Check availability in your local market.

**ADAPTIVE CRUISE CONTROL INCLUDING AMBIENT TRAFFIC MONITORING "FRONT ASSIST".**  
A sensor installed on the front of the car measures the distance and speed relative to vehicles up to 200 meters ahead, and automatically adjusts your speed to maintain a safe breaking distance.

**AMBIENT TRAFFIC MONITORING "FRONT ASSIST": INCLUDING CITY EMERGENCY BRAKING FUNCTION.**  
Audio and visual alerts notify you when danger of a head on collision is detected. If you don't react the system briefly applies the brakes, before automatically applying the emergency braking system to minimize or avoid collision.

LEON SC

# SYSTEMS THAT CAN FORESEE YOUR REACTION

## FRONT & REAR PARKING SENSOR. (Optional)

These intelligent sensors help guide you into a parking space without incident, warning you if you are too close to the kerb, or another car.

## REAR VIEW CAMERA. (Optional)

Make squeezing into those tight spots a breeze with the Rear View Camera. Located in your rear bumper, the camera features sensors that alert you to possible obstacles or hazards via your car's interior display for easier, safer parking.

## AUTOMATIC POST-COLLISION BRAKING SYSTEM.

In the unlikely event of an accident, when the airbags have been deployed this innovative new breaking system will slow the vehicle to avoid any further collisions, keeping you and your passengers safer than ever.

## HIGH BEAM ASSIST. (Optional)

Where necessary, the Leon switches from high to low beam settings automatically so as not to dazzle oncoming traffic. And it leaves you free to concentrate on the road ahead.

## TRAFFIC SIGN RECOGNITION. (Optional)

For added safety and assistance, SEAT's Traffic Sign Recognition technology keeps you safe and stress-free on congested roads. Synced to your front camera, sensors detect speed limits, overtaking restrictions and road works so you can manoeuvre with ease.

## TIREDNESS RECOGNITION SYSTEM. (Optional)

By dynamically analysing your driving decisions, this system can detect if you're losing concentration and will suggest taking a rest. It warns you with a sound and visually by displaying an icon on an instrument panel for 5 seconds, repeating itself if necessary.

# ATTENTION TO DETAILS IS WHAT MAKES US STAND OUT

The SEAT Leon leaves no stone unturned. From start to finish it is a thing of beauty; with groundbreaking design, dynamism, and engineering at the root of its brilliance.

And as much as this car is about stunning features like the SEAT Full LED headlamps and SEAT Drive Profile, that doesn't mean there's been any less focus on functionality and safety. Details like our Post-Collision Breaking System, Lane and High Beam Assist all ensure the SEAT Leon is one of the safest cars we've ever built. A fact backed up by our 5-star EuroNCAP\* safety rating. The SEAT Leon truly is a car that is as practical as it is beautiful.

So now we've done the engineering, you just need to pick your trim, upholstery, wheels, paint, and add the joy.

\*For detailed information go to [www.euroncap.com](http://www.euroncap.com), the 5 star EuroNCAP rating was awarded to the SEAT Leon 5D model tested in 2012.

# ACCESSORIES

The Leon is about as well equipped as a car can be, but there are plenty of premium extras just waiting to be given a test drive. In our range, you'll find accessories that give your car a personal touch like Aerodynamic Kit. Sculpted by SEAT designers to give your SEAT Leon even greater confidence on the road. All components have passed demanding SEAT quality and resistance tests.

# SOLUTIONS FOR LIFE

Whether you're off for a pleasant family trip or a weekend of extreme sports fun, you'll find plenty more SEAT accessories for all kinds of drivers, and their passengers, to enjoy. From the latest transport options, like a secure and handy bicycle rack, to safety solutions, like child seats and separation grilles, every official SEAT accessory has been built to the same exacting standards as your Leon.

SEAT SERVICE NETWORK

CAR WASH SERVICE

INSPECTION AND MAINTENANCE

CAR PICKUP AND DELIVERY

SEAT offers a complete range of Services designed to protect you and offer total peace of mind

## SEAT SERVICE AND MAINTENANCE CONTRACTS

Manage your SEAT's servicing in the most practical way and spread its cost by adding it to your finance agreement to enjoy years of peace of mind.

## SEAT SERVICE MOBILITY

Continuous roadside assistance for two years (with the option to extend). Fast, efficient help 24/7 at home and in over 30 countries whether you need a replacement car, transport for you and your passengers or overnight accommodation. We will always find the best solution for you.

## SEAT WARRANTY EXTENSION

Your new SEAT is covered by a comprehensive worldwide warranty covering parts, accessories and labour without mileage restriction. For added peace of mind, you can extend this protection – for worry-free driving in the years to come.

## SEAT GENUINE ACCESSORIES

Give your car even more personality with the complete range of Genuine SEAT Accessories, fitted by the experts.

## 3 YEARS WARRANTY

Every new SEAT bought from an authorised dealer is covered by a two year, unlimited mileage warranty and a 3rd year limited to 90,000km.

## 2 YEARS REPAIR WARRANTY

If your car is repaired at an Authorised SEAT Service point using Genuine SEAT parts, we offer a 2 year warranty on both parts and labour – with no mileage limit.

## 6-12 YEARS ANTICORROSION WARRANTY

Your new SEAT comes with a fully-galvanised body, which means we can offer a full 12 years guarantee against corrosion.

## COURTESY CAR

The SEAT Authorised Service Network will offer you a replacement vehicle at a very reasonable price so you can get about while your car is in our workshop.

## SEAT CUSTOMER CARE

We're here 24 hours a day every day to answer your questions and solve any problems you have with your SEAT. Just email xxxx@seat.xx or call XXXXXXXX.

---

We are Spanish and German. We are passionate perfectionists. We are emotional technologists. Everything we know, is everything you feel. We give design a purpose. We bring technology to life. We call it TECHNOLOGY TO ENJOY. We are SEAT.

**SEAT** is committed to a policy of continuous product development and reserves the right to make changes to specifications, colours and prices without notice. The information in this brochure can therefore be given as guidance only. While SEAT makes every effort to ensure that specifications are accurate at the time of publication, you should always check with your authorised SEAT Partner for the latest information. Due to limitations of the printing process the colours reproduced in this brochure may vary slightly from the actual paint colour and material. This vehicle and all its parts, as well as the original spares, were designed according to the Legal Regulations governing the prevention and minimisation of Environmental Impact, through the use of recycled/recyclable materials, with measures taken to achieve suitable recycling for the conservation and improvement of environmental quality.
