PERFORMANCE PACK

Beat your own score

Add a new level of dynamism to your ride with a Leon CUPRA Performance Pack. The pack offers a grade of technological precision that was impressive enough to earn the CUPRA a new world record on Germany's notorious Nürburgring Circuit in March 2014. Roaring ahead to deliver a jaw-dropping 276 bhp hot hatch laps in only 7:58.4s, it was to be the fastest time ever achieved by a front-drive production car. Now, you can empower your own Leon with the main components of the incredible enhancement. Available in stylish black or distinct orange, each pack features standard 30/3 alloy wheels, high-tech Brembo brake calipers and an aerodynamic exterior rocker panel. You can also choose "Pilot Sport Cup 2" Michelin tyres for extra handling and traction for the smooth, sporting drive that's always on your terms.

Safety

AUTO-HOLD.
The Auto-Hold function is an extension of the electric handbrake and offers you more convenience and extra safety. Operated via the ABS/ESC hydraulic unit, it stops your car from rolling away accidentally when standing still or setting off. When the car is braked to a standstill, Auto-Hold retains the last-applied braking pressure. You can take your foot off the brake and all four wheel brakes will stay on. If the ABS wheel speed sensors detect any rolling, the braking force is automatically increased until the car comes to a standstill again. As soon as you press the accelerator again and, in the case of manual gearboxes, release the clutch, Auto-Hold reduces the braking pressure.

PEDESTRIAN PROTECTION.
An extra pair of eyes never goes amiss. Pedestrian Protection senses if someone is crossing in front of the vehicle and alerts you with an acoustic and a visual signal before automatically applying the brakes.

KEYLESS SYSTEM.
Hands full? Of course they are! Well with KESSY Keyless access you can lock and unlock the New SEAT Leon without lifting a finger.
