6. NEW LEON WITH MEDIA SYSTEM PLUS

- DATE OF MANUFACTURE BETWEEN NOVEMBER
7TH 2014 AND MAY 29TH 2015

- DATE OF MANUFACTURE LATER THAN MAY 29TH 2015

INTRODUCTION

In line with its leitmotif 'Technology to enjoy', SEAT has introduced a new technology into its entire range (except the Mii) that keeps its customers connected throughout the journeys they make. This new technology, known as Full Link, is an option available in all Media System Plus radio navigation ranges or higher.

Full Link combines three different connectivity platforms:

/ MirrorLink™

/ Apple CarPlay™

/ Android Auto

MirrorLink™ – This is the first connectivity platform to be constituted and is comprised by a consortium formed by technology and automotive companies.

Further details at <http://mirrorlink.com/>.

This platform enables customers to view any application certified by the consortium (CCC) on their radio navigation system and, within this setting, SEAT has developed two apps that will be available in Google Play™ by late June 2015: the 'SEAT DriveApp' and the 'SEAT ConnectApp'.

Apple CarPlay™ – This is the in-house solution developed by Apple to connect its iPhone devices to vehicle radio navigation systems.

Check compatibility and apps at <https://www.apple.com/ios/carplay>.

SEAT is working on the development of apps for this platform.

Android Auto – This is the in-house solution developed by Google for devices with Android L (5.0 or higher).

Further details and available apps at <http://www.android.com/auto/>.

SEAT is working on the development of apps for this platform.

COMPATIBILITY NAVI SYSTEM

New Leon, Ibiza, Alhambra and Toledo

Valid for navigators with part number: (5QA.035.824 or 5QA035834 or 5QA.035.846 or 5QA.035.858) and Software 0241.

Date of manufacture later May 29TH 2015.

MirrorLink™:

- Certain devices with version 1.0 may have limitations and are not available when driving.
- In the event of sporadic problems regarding the phone connection to MirrorLink™, it should be reset.
- The "Close Apps" option has limited functionality on some smartphones.
- Compatibility is carried out via the USB cable corresponding to each smartphone.
- When connected to MirrorLink™ and disconnected from the radio, some mobile phones continue to play music through their speaker.
- MirrorLink™ only works while the smartphone is unlocked.
- Certain Apps are only available when the vehicle is at a standstill.
- For further information on Apple CarPlay™, please visit the website: (<http://www.mirrorlink.com/>).

Apple CarPlay™ :

- No device should be connected to the radio via Bluetooth when connecting your iPhone to Apple CarPlay™ technology.
- For further information on Apple CarPlay™, please visit the website: (<https://www.apple.com/es/ios/carplay/>).

Android Auto:

- **Lists of smartphones compatible with Android Auto technology will be published shortly.
- For further information, please visit the website: (<https://www.android.com/auto/>) or (<https://support.google.com/androidauto/>).
